DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3-13-09 has been entered.

Response to Arguments

2. Applicant's arguments, see pages 13-15, filed 3-13-09, with respect to the claims have been fully considered and are persuasive. The rejection of the claims has been withdrawn.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 42 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The new claim limitation recites that the information message and the multimedia message are transmitted during the same single traffic connection.

Art Unit: 2617

However, the claim recites that the information message is sent and then the traffic connection is created. It is unclear how they can be in the same single traffic connection if the connection is created after the information message is already sent.

5. Claims 43-55 have the same deficiency because its dependency to claim 42.

Allowable Subject Matter

6. Claims 69-82 are allowed.

7. The following is a statement of reasons for the indication of allowable subject matter: The applicant arguments filed 3-13-09 are persuasive.
